This is a digital copy of a book that was preserved for generations on library shelves before it was carefully scanned by Google as part of a project to make the world's books discoverable online.

It has survived long enough for the copyright to expire and the book to enter the public domain. A public domain book is one that was never subject to copyright or whose legal copyright term has expired. Whether a book is in the public domain may vary country to country. Public domain books are our gateways to the past, representing a wealth of history, culture and knowledge that's often difficult to discover.

Marks, notations and other marginalia present in the original volume will appear in this file - a reminder of this book's long journey from the publisher to a library and finally to you.

Usage guidelines

Google is proud to partner with libraries to digitize public domain materials and make them widely accessible. Public domain books belong to the public and we are merely their custodians. Nevertheless, this work is expensive, so in order to keep providing this resource, we have taken steps to prevent abuse by commercial parties, including placing technical restrictions on automated querying.

We also ask that you:

+ *Make non-commercial use of the files* We designed Google Book Search for use by individuals, and we request that you use these files for personal, non-commercial purposes.

+ *Refrain from automated querying* Do not send automated queries of any sort to Google's system: If you are conducting research on machine translation, optical character recognition or other areas where access to a large amount of text is helpful, please contact us. We encourage the use of public domain materials for these purposes and may be able to help.

+ *Maintain attribution* The Google "watermark" you see on each file is essential for informing people about this project and helping them find additional materials through Google Book Search. Please do not remove it.

+ *Keep it legal* Whatever your use, remember that you are responsible for ensuring that what you are doing is legal. Do not assume that just because we believe a book is in the public domain for users in the United States, that the work is also in the public domain for users in other countries. Whether a book is still in copyright varies from country to country, and we can't offer guidance on whether any specific use of any specific book is allowed. Please do not assume that a book's appearance in Google Book Search means it can be used in any manner anywhere in the world. Copyright infringement liability can be quite severe.

About Google Book Search

Google's mission is to organize the world's information and to make it universally accessible and useful. Google Book Search helps readers discover the world's books while helping authors and publishers reach new audiences. GARDNER CHILSON.

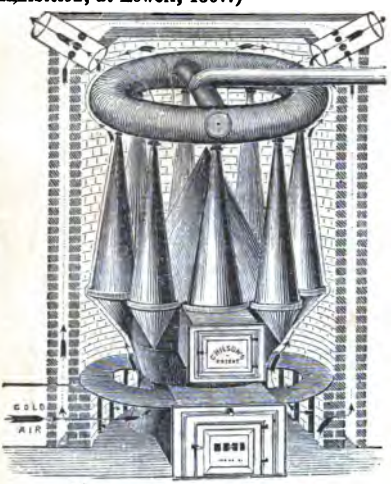
CHILSON'S PATENT IMPROVED CONE FURNACE.

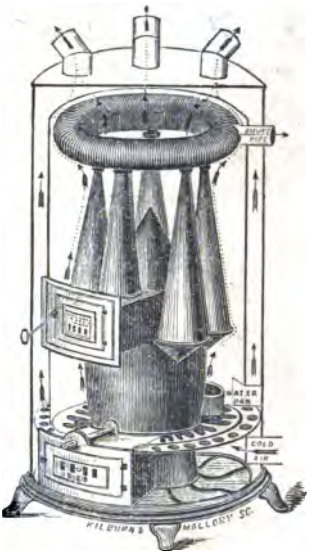
Remodeled for 1867. Patented in the United States, England, and France.

A GOLD MEDAL was awarded to this celebrated Furnace, at a recent Fair of the Massachusetts Charitable Mechanic Association; and the only GOLD medal ever awarded any Furnace by this Association.

It has also received another GOLD MEDAL (first premium at the Middlesex Mechanics' Exhibition, at Lowell, 1867.)



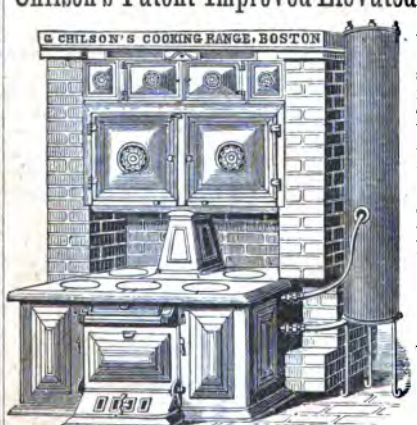
FOR SETTING IN BRICK WORK.



IN PORTABLE CASINGS.

This Furnace is now in such general use, and its reputation being so well and favorably established, renders it needless to particularize its many superior advantages for Warming Buildings, over any other known plan. Sizes suitable for warming all classes of private or public buildings; and for setting, either in Brick Work or as Portables.

Chilson's Patent Improved Elevated Double-Oven Cooking Range,



Also Remodeled, and Final Improvements just added.

This celebrated Range has become an INDISPENSABLE FIXTURE in all well-regulated Kitchens. It is truly THE COOK'S FAVORITE, as can be proved by the many thousands of testimonials received. Sizes in variety, for Dwellings, Hotels, &c., with or without WATER BACKS FOR BATH BOILERS, and other Washing purposes; also HOT CLOSETS and HOT-AIR FIXTURES, for heating additional rooms when desired.

No Housekeeper will long use any other plan of Cooking Range after an examination of this.

For sale at the subscriber's Foundry in Mansfield, Mass., or at his Store,

99 & 101 Blackstone St., BOSTON.

PREFACE.

In presenting the first number of the WOBURN DIRECTORY it has been the endeavor to make a book that shall commend itself to the citizens of the town. It is believed that the information which it contains will be found useful, and no pains have been spared to make it full and reliable. The labor of collecting and arranging the facts herein set forth has been considerable, but the many words of commendation and encouragement that have been freely bestowed during the progress of the work have lightened the task and made it pleasant.

Our business men have given the enterprise a liberal patronage, and their advertisements are commended to the attention of the people of Woburn.

Errors and omissions will doubtless be found in these pages, and some changes have occurred since the canvass for the facts was made, but it is believed that these inaccuracies are rare, and that the Directory will be found to be, in the main, correct.

To the many friends whose assistance during the progress of the work has been so cheerfully given, the publisher would return his sincere thanks.

The DIRECTORY will be issued in future as often as the growth of the town and its business interests shall require.

Number of names in the Directory, 2324.

SKETCH OF WOBURN.

In 1640, Edward Converse, Edward Johnson, John Mousall, Thomas Graves, Samuel Richardson and Thomas Richardson were chosen a committee by the church of Charlestown to locate a church and town in "the country" above that town. They attended to that duty, and while on the expedition were obliged to encamp for the night. The records say, "Some of the company lay under the body of a great tree, it lying some distance from the earth. When the daylight appeared, no sooner was the last man come from under it, but it fell down, to their amazement, [they] being forced to dig out their food that was caught under it, it being so ponderous that all the strength they had could not remove it." On their return to Charlestown, a meeting was called, when so many desired to go to the town, that Charlestown "from that day forward had a suspicious eye over them." The town was formed, however, and contained a territory of four miles square, joining Charlestown on the south, and it was called "Charlestown Village." On the 27th of September, 1642, Charlestown Village was incorporated as Woburn.

The first Selectmen were: Edward Johnson, Edward Converse, John Mousall, William Lerned, Ezekiel Richardson, Samuel Richardson, James Thompson. The first house was erected by John Mousall near the present residence of G. W. Reed on Prospect street.

The population of Woburn in 1776 was 1,691; in 1865 it was 7,002.

In the war of the Revolution Woburn bore her part; one of her citizens, Ashael Porter, was killed at Lexington, and an-

other, Benjamin Thompson, was killed at Concord. Also in the war of 1812 was the town represented. In the war of the Rebellion eighty-three of her citizens were killed in battle, died in prison and of disease, and the town furnished for the army and navy 775 men.

The present boundaries of the town are: north by Wilmington and Burlington, west by Burlington and Lexington, south by Winchester, and east by Stoneham and Reading. The territory contains 7,750 acres of taxable land. It is watered by several small streams, including the tributaries of Ipswich river. There are also four small ponds, besides Horn pond which contains about 150 acres, all of which empty their waters into Mystic pond, from whence the cities of Charlestown and Chelsea draw their supply of water. The surface is somewhat diversified, and contains several hills of considerable size. Meeting-house hill, situated in the Centre, so called from the fact that the second meeting-house was built upon it; Rag rock, so called from its rugged appearance; Powder House hill is surmounted by a powder house; Horn Pond mountain, from Horn pond, which lies at its base; Whispering hill is the southern terminus of a ridge running from Burlington to the south side of Russell street; Zion's hill is south of Lexington street. On the south side of a hill, situated east of the Woburn Branch Railroad, and south of Green street, silver ore has been found in small quantities. The soil of Woburn is fertile and well adapted to agricultural pursuits, which almost exclusively engaged the attention of the early settlers. There are several small water privileges in town that furnish power for manufacturing purposes.

The town is largely interested in the manufacture of leather, this branch of industry affording occupation for a majority of the citizens. As early as 1673 a tannery was established near where the Baptist church now stands, and it is not unlikely that

others of which there is no record were established earlier. The manufacture of shoes is also an interest of some importance, though not so extensively engaged in as formerly. The Woburn Branch Railroad was completed in 1844, it being a branch of the Boston and Lowell Railroad, leaving the main track at South Woburn, now Winchester, and is two miles in length. There is also another branch railroad, which runs from Horn pond and intersects with the Woburn branch at about the centre of the line. This is owned by the Boston Ice Company, and is used to transport the ice, of which about 40,000 tons is annually harvested at Horn pond, to a market. Before the opening of the Woburn Branch Railroad, stages ran regularly to Boston, ten miles distant, and for several years fifteen stages from Lowell and localities further north daily passed through the town. This added considerably to the business of the place, and in those days there were five taverns in successful operation where there is now but one. The Middlesex Canal ran through the town, and at Horn pond were situated six locks. Before the railroad from Boston to Lowell was built, packet boats were run, and the gathering of passengers at these locks gave patronage at that spot to one of the most noted taverns in the vicinity of Boston. Since the opening of the Woburn branch, the increased facilities for communicating with Boston have given a great impetus to business in Woburn, and it now stands high among the enterprising towns of the State.

The first cemetery in the town was the one on Powder House hill, and the first burial was made there in 1689. The cemetery on Railroad street was first used in 1800. The Woburn Cemetery was dedicated in 1845. The Catholic Cemetery was consecrated in 1855.

Educational interests have always largely engaged the attention of the citizens. The Warren Academy was founded in

1825, and afforded an opportunity for an education, which was enjoyed not only by the youth of the town, but by many from other localities. The High School was established in 1852. This institution affords the means of obtaining an education preparatory to a college course, and although it is comparatively in its infancy, some of its graduates have already attained distinction in the professions they have chosen. Great pains are taken with the instruction of the young, and for the encouragement of those who desire to learn, and few towns possess better facilities for obtaining an education.

All shades of religious opinion are represented in the town, and Congregationalists, Baptists, Unitarians, Methodists, Catholics, Episcopalians, Swedenborgians and Spiritualists have organizations for the furtherance of their views and the maintenance of their form of worship. Of libraries and literary societies there is a fair number, and the various reforms are maintained by appropriate organizations.

The limits of this sketch will not permit a more extended notice of the town. The History of Woburn, written by the late Father Sewall of Burlington, is now in press, and it will be found to contain a very full and correct history of the town from its incorporation to the present day. Its business enterprise, the beauty of its scenery, the fertility of its soil, its educational and religious advantages, its rapid growth, the intelligence, public spirit and patriotism of its citizens, are worthy of more extended notice. Those persons to whom purely rural or strictly commercial communities are alike distasteful will find in Woburn that all these things combine to make it at once a desirable residence and a happy home.

The Great Remedies of the Age!

☞ **HUNNEWELL'S Universal Cough Remedy**
For all Throat and Lung Complaints. Small Bottles, 25 cts.; Large do. 50 Cents.

☞ **HUNNEWELL'S Tolu Anodyne,** The Great Remedy for Asthma, Neuralgia, Pains in Menstruation, and all Nervous Complaints. 50 Cents per Bottle.

☞ **Hunnewell's Eclectic Pills** Cure all derangements of the Stomach or Bowels without the Slightest Griping, a point the importance of which cannot be over-estimated. The dose, a Single Pill, never more than two, and so very small, make them most valuable in every Family. **25 Cents per Bottle.**

☞ **HUNNEWELL'S Consumptive Remedy.**
By the most careful comparison of this distressing complaint, with the chances of relief, or a Permanent Cure, I am satisfied that the above named preparation, which has been fully tested in detail with the various phases of what are called CONSUMPTION, or CHRONIC NERVOUS COUGH, that it is not only perfectly adapted, but that the complaint has at last found a CONQUERER. I can only assure such that cases can be referred to, where they were declared incurable, which have all the promises of a long life as ever, and with confidence to use it, or correspond with me.
Price, One Dollar per Bottle. Six Bottles, Five Dollars.
☞ Carefully packed to send by Express. Dealers supplied, with the usual discount.

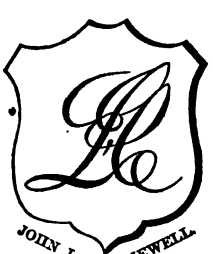
HUNNEWELL'S

CELEBRATED OPAL CEMENT,

FOR MENDING CROCKERY,

GLASS-WARE, MARBLE, PARIAN SPECIMENS,

STONE-WARE, and STONE VENEERING.



Price, 30 Cents. **By Mail, 35 Cents.**

This celebrated Cement has been known for years among artists for its great strength, and until quite recently confined to their use. So perfect is it adapted to the wants of every family; mending the hardest wares and smoothest fractures, and so perfectly colorless, that with care in cleansing the fractures, the broken pieces can be put together without being noticed by the most practiced eye.

Private and Independent

DETECTIVE OFFICE!

NO. 3 TREMONT ROW,

(Opposite the head of Hanover St.,)

Room 4, - - - BOSTON.

Believing that the wants of the public require an establishment where better and more ready facilities can be offered for the early

APPREHENSION OF THIEVES, and the Recovery of Lost or Stolen Property,

Than can be had through the regular Police Department, the undersigned have opened an office for a

General Detective Business,

And take this method of informing SHERIFFS, BANK OFFICERS, INSURANCE OFFICERS, RAILROAD and EXPRESS COMPANIES, ETC., that they will attend promptly to any business of this nature that may be intrusted to them in the United States or any part of the British Provinces.

WE HAVE CONNECTED WITH OUR OFFICE,

A Corps of Detectives,

Who have been, for several years, members of the Boston Police Department; the senior member of the firm has had twelve years experience in the Boston Police, and three years as a Detective, which is a guarantee of his ability.

Parties desirous of recovering any LOST or STOLEN PROPERTY, or the early apprehension of THIEVES, PASSERS OF COUNTERFEIT MONEY, or any other business that requires the services of Expert Detectives, will please address

J. S. HUNT & CO.,
INDEPENDENT DETECTIVES,
Room 4, No. 3 Tremont Row.

P. S.—All business intrusted to our care, will be attended to in the most prompt manner, and strictly confidential.

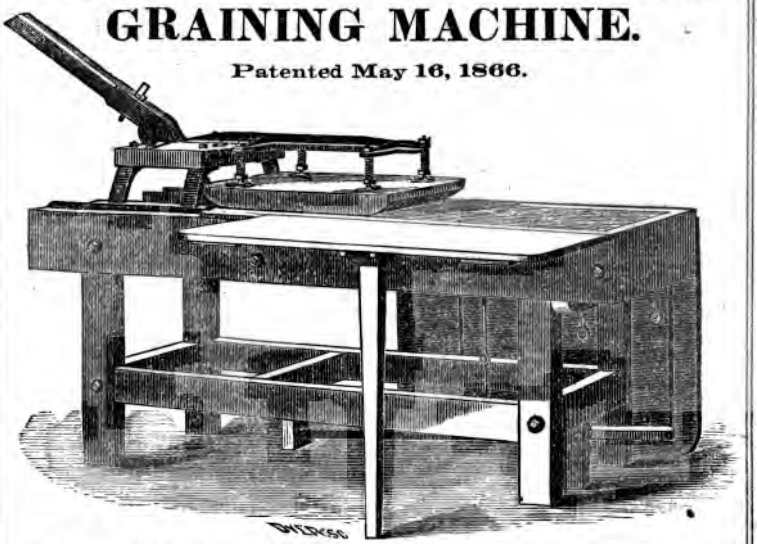
The PARKER LEATHER BOARDING and GRAINING MACHINE.

Patented May 16, 1866.



The above Machine is in active use in some of the largest leather manufactories in the country, and its many advantages have been fully demonstrated. *It supersedes manual labor in an important branch of the business, doing the work far better, quicker and cheaper than it can possibly be done by the old process. It easily performs the work of three men, and can therefore be made to pay for itself in a short time. At the Mechanics' Fair held in Lowell in* 1867, *the First Silver Medal was awarded to this Machine in the class of new and important inventions.*

Attention is called to the following Testimonials from well known leather manufacturers:

WOBURN, Mass., Aug. 21, 1867.

We have used the Parker Boarding and Graining Machine for the last seven months in our currying establishment in Woburn, and can recommend it to be an invention well worthy the patronage of all the currying establishments in the country. It saves time, labor and expense. HORACE CONN & Co.

SOUTH DANVERS, Mass., Aug. 27, 1867.

MESSRS. PARKER, HOLDEN & Co.—Gents: We have used your Boarding Machine for some months, and are satisfied that it is a great labor saving machine, and that it does better work than hand labor. Yours, etc., BROWN & CALLER.

SHREWSBURY, Mass., Sept. 2, 1867.

MESSRS. PARKER, HOLDEN & Co.—Gentlemen: We are using the Parker Boarding and Graining Machine, and are much pleased with it. We can recommend it to all upper leather finishers as a great labor saving machine.

Yours truly, NELSON & RICE.

Churches, Chapels, Schools, Lodges, Seminaries, Parlors, and the Home Circle.

For Sacred and Secular Music, the AMERICAN ORGANS containing the RESONANT AIR-CHAMBER, IMPROVED KNEE-SWELL, SUPER OCTAVE COUPLER, and MANUAL SUB-BASS, received THE HIGHEST PRIZE MEDAL for Organs, over all other competitors, at the recent Lowell Mechanics' Fair.

By universal acknowledgment of the Musical Profession, the AMERICAN ORGANS are admitted to possess the most perfectly finished mechanism, the most delicate voicing, and a quality superior in every respect to any instruments in Europe or America.

GEORGE W. POLLOCK,

DEALER IN

FURNITURE,

Parlor and Chamber Sets, Mattresses,

Crockery & Tin Ware,

STOVES,

And General House Furnishing Goods,

Main Street, corner of Walnut Street, - - WOBURN.

Having purchased the stock and stand lately owned by C. W. OXFORD & CO., and replenished the store with new and first-class goods, I propose to do a

STRICTLY CASH BUSINESS,

Settling Each Bill before the Goods Leave the Store.

No partiality will be shown, therefore no one can take offence. I shall buy for Cash, and save 5 per cent. I shall save from 5 TO 10 per cent. on sales, by having no bad debts. The time usually spent in running after delinquent debtors, and the money spent in suing them, will also be saved. The credit system makes enemies, for while it may be pleasant getting trusted, being DUNNED is very offensive, especially to slow payers. The credit system tempts a man to buy more than he can actually afford, but when the bill is presented, and he is unable to pay, he feels the truth of the saying, "the borrower is servant to the lender." A man is degraded in his own and his neighbor's eyes, who is hopelessly in debt. From all these considerations, I propose to BUY AND SELL FOR CASH, pledging myself to give customers, by that system,

10 to 15 Per Cent. Advantage.

Goods will be warranted as represented. Quick sales and small profits will be the aim, and honesty the rule of the establishment, hoping thereby to secure the confidence, and a fair share of the trade, of the people of WOBURN.

All kinds of Repairing Neatly & Promptly Done.

Portland & Kennebec R. R.

Passenger trains leave BOSTON daily at 7.30 A. M., and PORTLAND at 1.00 P. M., for all stations on this line, and for Lewiston on the Androscoggin Road, and Pittsfield, Newport and Bangor on the Maine Central Road.

Leave BOSTON daily at 3.00 P. M., and PORTLAND at 8.15 P. M. for Bath and Augusta.

THIS IS THE ONLY ROUTE EAST without break of gauge at Portland, and the only route by which a passenger from Boston and stations on the Eastern and Boston & Maine Railroads can certainly reach Skowhegan the same day by railroad.

With the Through Freight Trains each way, between Portland and Skowhegan, a passenger car is attached, for the accommodation of travellers.

At Portland ample time is made for dinner and supper, in passing to and from Boston.

Fare as low by this route to Lewiston, Waterville, Kendall's Mills and Bangor, as by the Maine Central Road; and tickets purchased in Boston for Maine Central stations are good for a passage on this line. PASSENGERS FROM BANGOR, NEWPORT, &C., will purchase tickets to Kendall's Mills only, and after taking the cars of the Portland & Kennebec Road, the Conductor will furnish tickets, and make the fare the same through to Portland or Boston as via the Maine Central Road.

Stages leave Bath, Augusta, Vassalboro', Kendall's Mills and Skowhegan, for the principal towns North and East on their routes.

COLBY'S PILE REMEDY!

Warranted a Sure Cure.

It has been extensively used in the West, where hundreds can certify to the efficacy and valuable properties of this Remedy, which, taken according to directions, will certainly eradicate this horrible disease from the system. The Proprietor feels confident that when his medicine is fully tested, it will be as fully appreciated by the people of New England as by any section of the country. If parties are not entirely satisfied with the article, the Proprietor will be pleased to refund the money to all parties using it.

The effects of this Remedy can be seen before using one-half the amount required to effect a cure. One beauty about this Remedy is, it is purely vegetable. No drugs are used in preparing it. Two bottles warranted to effect a cure. Again we say, use it, and you will be satisfied that it is all that we represent it to be in every respect. PRICE, $1.00 per Bottle.

JOHN M. COLBY, 95 State Street, Boston, Mass.

It is recommended in preference to Ether or Chloroform, for the following reasons:

1st. Under ALL circumstances it is perfectly safe.

2d. From one to twenty Teeth can be extracted at ONE inhalation, the entire operation lasting not over 3 minutes, without the least pain to the patient.

3d. It never causes sickness at the Stomach.

4th. It leaves the patient with no lassitude or debilitating feelings.

5th. It is not disagreeable to inhale.

The following extract from a note received by Dr. D. is submitted:

"I have examined the apparatus, mixtures and processes for preparation of Nitrous Oxyd Gas, and find the apparatus of the most approved kind, the mixture pure and the Gas free from all deleterious mixtures. CHAS. T. JACKSON, M. D., State Assayer."

With twenty-five years' experience in his profession, he offers his services to all who may wish operations in Surgical or Mechanical Dentistry.

J. R. DILLINGHAM, Dentist, 12 Winter Street.

PUBLIC SCHOOLS.

The public schools of Woburn are now intrusted to the care of a Board of School Committee consisting of six members. Annually in April two members are chosen to serve three years, and the terms of two of the members expire at the same time. They appoint the teachers, and have a general supervision of the schools. The care of the school houses and the financial affairs of the schools are in charge of the Superintendent of Public Schools, who receives for his services the sum of $1,200 per annum. The School Committee render their services gratuitously.

The schools are graded, as far as practicable, throughout the town,—one high school, two grammar schools, one training school, six intermediate schools, eight primary schools, and three mixed schools.

The full course of study in the high school requires four years; the grammar schools three years; the intermediate schools two years; and the primary schools three years. Children are admitted to the primary schools at the age of five years; consequently those who pass through all the grades will be in the schools twelve years.

At the beginning of each school year, pupils who are qualified are advanced from a lower to a higher grade. The course of study, and the books used in each grade, are the same throughout the town, being prescribed by the committee upon whom the duty falls, according to State law.

In April, 1868, the town, on recommendation of the School Committee, appropriated $21,000 for the support of schools during the current year.

The whole number of children in the town the first day of May, 1867, between five and fifteen years of age, was 1687, and nearly all are in the public schools.

The scholastic year consists of forty weeks, divided into three terms.

The Fall term commences the first Monday in September.

The Winter term commences the first Monday in December.
The Spring term commences the first Monday in March.
The schools are closed every Saturday and on the following holidays: Washington's Birthday, Fast Day, 1st of June, Independence Day, Christmas and New Year's Day, and the days of the meetings of the Middlesex County Teachers' Association.

This ancient church was organized in 1642. Rev. Thomas Carter, the first pastor of the church, died in 1684, in the forty-second year of his ministry; second, Rev. Jabez Fox, in 1703, in the twenty-third year; third, Rev. John Fox, in 1756, in the fifty-third year; fourth, Rev. Edward Jackson, colleague to Rev. Fox, in 1754, in the twenty-fifth year of his ministry. Rev. Josiah Sherman, dismissed in 1775, was pastor nineteen years. The church was without a pastor for ten years at the time of the Revolution, and Mr. Samuel Sargeant, ordained in 1785, was dismissed in 1799. Rev. Joseph Chickering was dismissed in

FIRST CONGREGATIONAL CHURCH, WOBURN, MASS.

1821, after a seventeen years' pastorate. Rev. Joseph Bennett died in 1847, having been settled here twenty-six years, nearly. His successor, Rev. Jonathan Edwards, remained pastor seven years. Rev. Daniel March left after five and a half years' service. Rev. J. C. Bodwell was pastor four years. The church, at a meeting held in April, 1868, invited Rev. S. R. Denen of Providence, R. I., to become its pastor. The parish at a subsequent meeting concurred in the action of the church, and a pastor will soon be installed.

This church has occupied, during the 226 years of its existence, six houses of worship; first, on the Common; second, on Meeting-house Hill; third, on the Common (burned); fourth, where the Unitarian church now is; fifth, the Unitarian before it was remodelled; and sixth, the present house, of which we give an engraving. This house is 150 by 87 feet, and the spire is 196 feet high. The auditorium is 50 by 110 feet, and together with the galleries contains 284 pews, capable of seating about 1550 persons. It was dedicated October 31, 1860.

Auditors.—A. E. Thompson, J. D. Tidd.

This institution receives deposits from five cents to one thousand dollars, but the smallest sum put to interest is one dollar, and no fractional part of a dollar will draw interest.

Money deposited can only be drawn out by the depositor, or some person by him legally authorized. No money can be withdrawn except on the first Saturday of January, April, July and

October, provided, however, that the Treasurer may pay any depositor who applies on any other day, his interest or principal, or part thereof, if the money on hand be sufficient for the purpose, (one week's notice before the day of withdrawing having been given to the Treasurer,) and no sum less than one dollar of the principal of any depositor can be withdrawn, unless the whole sum deposited by such person be less than that amount.

On the first Saturday of January and July, of each year, there is declared and paid a dividend of two and a half per centum, or five per centum per annum, on all sums above one dollar which have been deposited for the space of six months next preceding, and a proportional rate of interest is paid on any sum above one dollar which has been deposited for the space of three months; but upon fractional parts of a dollar no dividend is computed.

Upon the death of any depositor the money standing to his credit is paid to his legatee, or heir at law, or legal representative, conformably to the laws of the State; and if the sum is under fifty dollars, the same is paid to the legatee, or next of kin, or legal representative, without the expense of any probate of will or letter of administration.

All interest, if the same be not called for within three months from the time when it is declared, is added to the principal of the depositor, and is entitled to interest as much as an original deposit; but in case money is withdrawn before the declaration of a dividend, no interest is allowed on it for the period which may have elapsed since the last dividend was declared.

At the end of every three years, the first to be computed from the first day of July, A. D. 1854, there is declared and paid a dividend of all profits which may have accrued within the three years, (after deducting the dividends already made, the necessary expenses of the institution, and the sums necessary to keep good the capital stock,) to and among all the depositors whose deposits exceed the sum of one dollar, and have remained in the bank for the space of one year at least next preceding the time of declaring this extra dividend, in proportions to the sums by them respectively deposited, and to the length of time during which such deposits may have remained in the bank; but in making such apportionment no regard is had to any fractional parts of a year or of a dollar, but each sum deposited within any year is referred to the first Saturday of July next following the time in which it was deposited.

WOBURN CEMETERY.

DEDICATED OCTOBER 30, 1845.

Cemetery Committee.—Charles Choate, P. L. Converse, M. F. Winn.

This spot now so dear to the hearts of many of the citizens of Woburn is situated about half a mile from the centre of the town, and has an entrance on Salem street and another on Charles street, leading to Main street. As originally arranged, it covered about nine acres, beautifully laid out in paths and avenues, and contained 431 lots. These lots were purchased by individuals about the time of the dedication of the cemetery, and they have since been tastefully decorated with trees and shrubs and flowers, and upon many of them are placed some of the most beautiful monuments to be found in this vicinity. In 1866, Mr. Sewall Flagg left a sum of money to the town to be spent in enlarging the cemetery. This purpose has been accomplished, and the bounds of the cemetery now enclose some 21 acres, and lots to the number of 900. There is an excellent receiving tomb, which is used during the winter. The grounds and walks and the sale of the lots are placed in the hands of the Cemetery Committee chosen by the town at the last annual meeting.

From the New York Independent.—"No one can read, from week to week, the selections brought before him in THE LIVING AGE, without becoming conscious of a quickening of his own faculties, and an enlargement of his mental horizon. Few private libraries, of course, can now secure the back volumes—sets of which are limited and costly. But public libraries in towns and villages ought, if possible, to be furnished with such a treasury of good reading; and individuals may begin as subscribers for the new series, and thus keep pace in future with the age in which they live."

From the New York Home Journal, June 12, 1867.—"LITTELL'S LIVING AGE, long distinguished as a pioneer in the republication of the choicest foreign periodical literature, still holds the foremost rank among works of its class. Its standard of selections is a high one; and its contents are not only of interest at the present moment, but possess an enduring value. Its representation of the foreign field of periodical literature is ample and comprehensive; and it combines the tasteful and erudite, the romantic and practical, the social and scholarly, the grave and gay, with a skill which is nowhere surpassed, and which is admirably suited to please the cultivated reader."

From the Protestant Churchman, June 27, 1867.—"Age and life are alike its characteristics. It is linked with our memories of the old library at home; and it seems to grow fresher and better in matter as it grows older in years. Once introduced into the family circle, it cannot well be dispensed with; and the bound volumes on the library shelves will supply a constant feast in years to come."

From a Clergyman in Massachusetts, of much literary celebrity.—"In the formation of my mind and character, I owe as much to THE LIVING AGE as to all other means of education put together."
